

PetWash Ltd Legal Protection Manual

Israel 2026 - Smart operational legal logic for marketplace, stations, provider app, loyalty app and online shop

IMPORTANT: Draft only. This document is not legal advice. It must be reviewed, corrected and approved by an Israeli lawyer before publication, signing or use with customers, providers, property owners, hosts, insurers, payment providers or regulators.

1. Purpose of this legal pack

This pack is designed as a practical legal operating manual for PetWash Ltd before launch or expansion of a pet services marketplace, self-service wash stations, provider app, customer/Prestige loyalty app, online shop and QR/Nayax redemption. It is written to help product, operations, finance and legal teams understand the documents that must exist, why each is needed, and how the app logic should enforce the legal position.

2. Legal strategy in one page

- PetWash Ltd is a technology, marketplace, booking, payments, loyalty and station-operation platform - not an insurance company.
- Providers are independent service providers, not employees, unless a lawyer later approves a different model.
- Customer wallet/rewards are separate from provider earnings and payouts.
- Provider may use the Provider App and also use the Customer/Prestige App as a customer, but cannot book or review themselves.
- PetWash commission is 15%, not 20%, and must be visible to providers in payout logic.
- Every service location type needs different risk clauses: station, provider place, customer place, transport, public area.
- PetWash must keep audit logs: who agreed, when, which terms version, IP/device, uploaded evidence, admin approval and payout decision.

3. Laws and legal areas to review with Israeli counsel

Area	Why it matters to PetWash	Action needed
Consumer protection	Online bookings, distance sales, cancellation/refund notices, product sales and custom engraved goods.	Terms, checkout notices, cancellation form, refund logic, product return policy.
Privacy and databases	User, pet, provider, ID, location, medical/safety notes, payments, QR scans, CCTV/incident evidence.	Privacy policy, consent, data retention, data subject request form, vendor agreements, security controls.
Electronic signatures	Provider agreements, declarations, tax status, host addenda and customer risk acknowledgements.	Choose secure signature workflow and store certificate/audit trail.
Insurance / not insurance	Protection/guarantee wording must not look like an insurance policy or premium.	Use reimbursement/goodwill language, exclusions, claim deadlines and provider insurance obligation.

Labour / contractor classification	Providers set availability and prices, accept/decline jobs and are not employees.	Independent contractor agreement, tax declarations, no employee-style wording.
Tax / VAT / bookkeeping	Israeli receipts, invoices, VAT treatment, provider payouts, 15% commission.	Accountant-approved invoice and payout flow; SUMIT/accounting integration if used.
IP / copyright / trademarks / designs	Logo, app screens, brand, product designs, engraved collar designs, content and photos.	IP terms, provider/customer content license, trademark protection and anti-copying clauses.
Property / premises liability	Service may happen at station, provider home, customer home or public place.	Separate addenda and declarations for each location type.

4. Rover and Mad Paws lessons to adopt carefully

- Use visible cancellation policies before checkout and store the chosen cancellation policy on the booking record.
- Use a guarantee/protection page, but state clearly that it is not insurance and is subject to exclusions and limits.
- Require fast incident reporting, ideally within 24-48 hours, with photos, messages, invoices and vet documents if applicable.
- Keep payment and booking inside the platform so support, refund and evidence workflows can operate properly.
- Use provider profiles, reviews, verification badges, calendars, cancellation history and response metrics.

5. Mandatory document pack

Document	Who signs/accepts	Purpose
Customer Terms of Service	Every customer/user	Platform rules, bookings, wallet, rewards, QR, fees, cancellation, limitation of liability.
Provider Agreement	Every provider	Independent contractor, services, compliance, 15% commission, payouts, insurance, safety.
Provider Tax Declaration	Every provider; every 6 months	Tax/VAT status, invoice ability, no employment/tax reliance.
Provider Insurance Declaration	Every provider where applicable	Provider confirms own insurance and PetWash is not insurer.
Host Premises Addendum	Provider hosting at own place	Home safety, property permission, landlord/municipality risk, no unsafe premises.
Customer Premises Addendum	Customer books at their home/place	Access, property risks, cameras, dangerous pets, parking, safe worksite.
Protection / Not Insurance Disclaimer	Customer and provider	Defines goodwill/reimbursement process and exclusions.
Privacy Policy	All users/providers	Data collection, processing, sharing, retention and rights.
IP and Copyright Terms	All users/providers/contractors	PetWash brand ownership, content license, anti-copying, product/design protections.
Incident and Claim Form	Anyone reporting issue	Evidence, time limits, triage and admin decision process.

6. Place-of-service legal logic

Location	Main risk	Required document / app logic
PetWash station	Machine fault, self-service handling, QR/payment, cleaning/safety.	Station Terms, machine use warnings, issue form, maintenance logs, CCTV/signage review if used.
Provider place / host home	Pet escape/injury, other animals, landlord/building rules, visitors, property safety.	Host Premises Addendum, home safety checklist, photos, insurance confirmation.
Customer/booker place	Access, unsafe property, cameras, valuables, keys, parking, building rules.	Customer Premises Addendum, access instructions, camera disclosure, dangerous conditions warranty.
Public place / walking	Leash laws, dog aggression, traffic, third parties, weather.	Walking Safety Terms, GPS/care card, incident protocol, emergency vet contact.
Transport	Vehicle insurance, restraint, air conditioning, custody transfer.	Transport Addendum, vehicle/insurance evidence, pickup/drop-off photos.

7. App controls that make contracts real

- Version every legal document and store acceptance per user, booking and provider approval.
- Block provider approval unless mandatory documents are signed and valid.
- Block payout if required invoice, tax status, bank verification, insurance or incident clearance is missing.
- Block self-booking where customer_user_id equals provider_user_id.
- Show 15% PetWash platform commission on provider pricing and payout screens.
- Show cancellation policy and total price before payment.
- Require extra risk acknowledgment for pets with bite history, aggression, recent surgery, serious illness or escape risk.
- Require incident reports quickly and capture photos, chat, GPS/time stamps and vet invoices.
